

Frame Type Expandable Tent 16x32 System 2

[8340-01-503-3536 16' x 32' Camouflage Green Shade #483, Frame Type Expandable Tent](#)

The Frame Type Expandable Tent is a frame-supported tent consisting of an aluminum frame and a fabric covering of 16 oz. polyester duck. The end walls are laced to the two 16 foot long mid section fabrics that contains eight windows and four environmental control unit duct sleeves. The improved seaming construction is sealed to provide leak resistant interior. There is a heater stove pipe shield in the roof. The design now includes a full vinyl liner and fabric floor. Interior fabric color is white to provide better lighting distribution. Both the fabric and frame can be extended to any length in 16 foot sections. Field name is referred to as the "Aero-Fab."

SYSTEM 2 KEY FEATURES:

- Aluminum frame
- Improved polyester duck design. - User friendly design
- Windows w/screening on all sides
- Now leak resistant design
- Stove pipe openings and ECU Ducts - Quick mobility
- Camouflage Green coated polyester blackout fabric
- 512 square feet of floor space
- Modular design can be expanded in 16 ft increments to any length desired
- Rugged: maintains structural integrity in adverse weather conditions

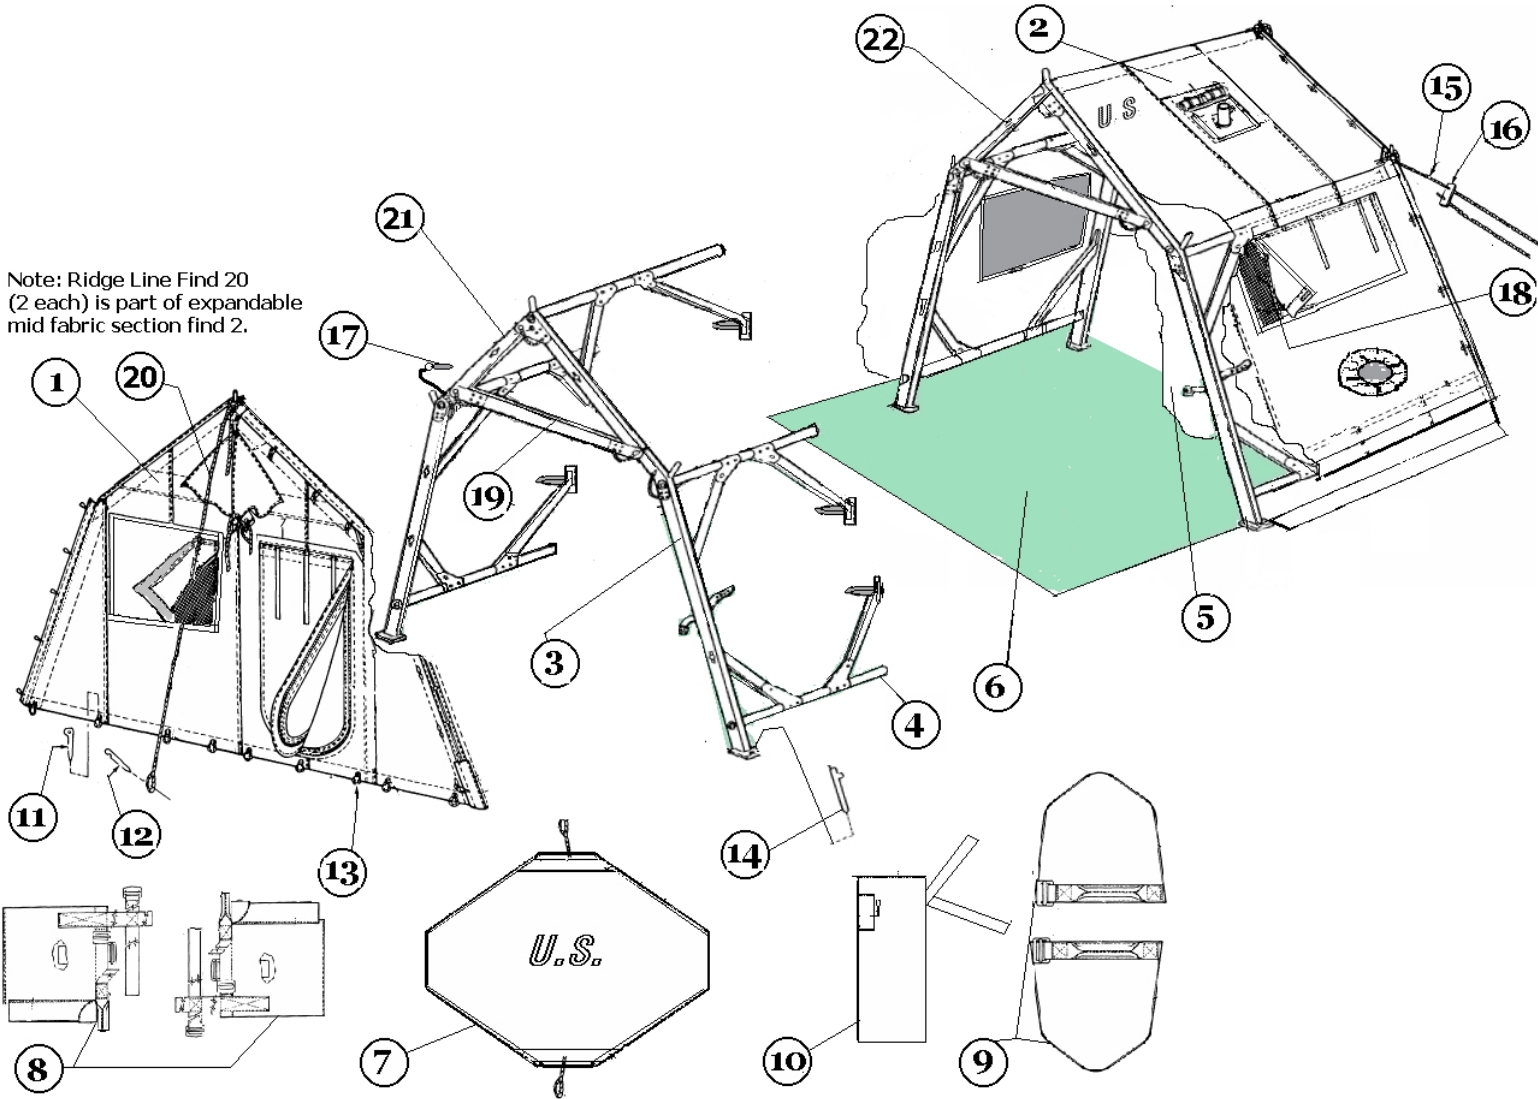

System 2 Description:

The Camouflage Green Frame Type Expandable Tent has a polyester duck fabric covering and is frame-supported. The frame is of sectionalized aluminum construction composed of collapsible arches connected by 8 ft-long purlins and braced by header bars. The fabric end walls contain a window with screen, gable vents and U-Shaped Door. The end walls are laced to the two 16 foot long mid section fabrics that contains eight windows and four environmental control unit duct sleeves. Both the fabric and frame can be extended to any length in 16 foot sections. The tent has a floor space of 512 square feet (16'L x 32'W), 8'6" Ridge Height, and 6' Eave Height. It weighs 573 pounds and has shipping of 60 cu. Ft.
